To be returned by Wednesday 16th November

Target: To research a world river

This week we have been learning about rivers using the words source, mouth, meander, levee, waterfall, rapids, current, tributary, floodplain, confluence and oxbow lake. We have looked at the River Severn from source to mouth and designed our own rivers.

For homework this week, we would like you to research a river from anywhere in the world. Find out about its source, mouth and the route it travels including any interesting facts. For example, does it have a famous bridge built above it? Is it the world's longest river? How is it used? Has there been any significant flooding events? Etc.

Present your homework however you like, whether it is a poster, a leaflet, a fact file or anything else. You might want to include a diagram, picture, fact box or quiz.

Best wishes,

Year 4 team

Facts about River Severn

- Name: River Severn
- Country: England
- Cities: Shrewsbury, Worcester, Gloucester, Bristol
- Length: 354 km
- Feet: 50 Feet deep
