

Homework- Challenge 1-

Due in 12th March 2025

Our KIRF this half term is to know multiplication and division facts for the 2x table. In order to practise this, please have a go at the activity below.

Serve it Up!

Can you share the strawberries equally between the two plates?
Cut the strawberries out and stick them on the plates.

$$12 \div 2 = \square$$

This time you have 14 oranges. Can you draw the oranges onto the plates below. Remember there needs to be an equal amount on the two plates. Write your number sentence in the space below.
