

Year 4 Homework Friday 27th January

Over the last few weeks, we have been learning about the human and physical features of Scandinavia and the north of England. We then plotted these locations on maps and wrote a comparison. For homework we would like you to do something similar with two different areas.

1. Choose two countries or regions that interest you.
2. Research some human and physical features of each place.
3. Write a short comparison of the human and physical geography of each place.

It is up to you how you present your work. You could make a poster, create a PowerPoint or stick pictures into your book. It is your choice entirely! Be ready to share what you have learnt in class next Friday.
