

Learning Values

Perseverance Courage Adaptability Teamwork Independence Communication Curiosity

Our school Learning Values underpin everything that we do each day. We believe that teaching our children to demonstrate these seven key values will empower them to be equipped for life when they leave our school. These Values are displayed in communal areas of school, such as the hall and playground, and in every classroom so that children are always reminded of them as they move around during the school day. Across the school, lessons, activities and whole-school assemblies are planned around our Learning Values. Each half-term, we focus on one Value in particular and we encourage and praise the children for displaying them in their daily lives. Children can also receive 'Gold Awards' and 'Pupil of the Week' certificates for displaying Learning Values.

See our Learning Values policy for further information.
