

Dear Parents and Carers,

We would like to invite you to a '*Times Table Workshop*' for Year 2 parents and children at 2pm on Thursday 9th January in the school hall.

During the workshop you will spend some time alongside your child familiarising yourselves with TTROCKSTARS. This is an online learning platform that your child will need to use as part of their times table homework, throughout the rest of their time at Lyppard Grange. We will also spend some time looking at the importance of learning times tables and how we can work together with you to support your child when learning them.

If you are unable to attend the workshop then we will be running a second, parent only, workshop at 6pm in one of the Year 2 classrooms on the same day, Thursday 9th January.

Please [use the link](#) to reply to this invitation so that we have an idea of numbers.

This is a fantastic opportunity to share learning with your child and to find out how you can support them to achieve success in mathematics.

We look forward to seeing you there.

Many thanks

Sian Edwards and Sally Griffith, (Maths Leads)
