This will give you a report of which questions you answered correctly and incorrectly. Make yourself some flashcards, writing on the times tables you missed. Write the question on the front e.g 7 x 8 and the answer on the back. If you score 25/25 pick two times tables (make them the hardest ones) to write up onto flashcards. Keep using these flashcards to revise regularly – your family might be able to help you out and quiz you!

You don't need to bring your flashcards into school – you are making your set to keep in school already. Keep these ones at home and use them.
